Frequently Asked Questions (FAQs):

1. What is the Special Financial Relief Programme (Unsecured) (“SFRP (Unsecured)”) and how does it work?

The SFRP (Unsecured) is part of the Special Financial Relief Package (SFRP) that the financial industry, in collaboration with MAS, has put forth to help individuals affected by the COVID-19 pandemic.

This initiative offered by banks and other card issuers aims to help borrowers who have suffered a temporary loss or decline in income and are facing difficulties meeting repayments under their existing unsecured credit facilities, by giving them an option to convert their high-interest unsecured credit card and revolving balances into a lower-cost term loan, thereby lowering their debt burden.

2. Am I eligible to apply for the SFRP (Unsecured)?

You can apply to OCBC to convert your existing unsecured credit balances to a lower-cost term loan if you:

- are a Singapore Citizen or Permanent Resident;
- have lost 25% or more of your income after 1 February 2020 (proof of impact on income required);
- have not made the required minimum payment for your latest statement or more (as at application date); and
- are not on any existing debt repayment or restructuring programmes with the bank or card issuer, such as Debt Consolidation Plan (DCP), Repayment Assistance Scheme (RAS), etc.

3. What are the key features of this term loan?

- Loan tenor up to 5 years
- Effective interest rate capped at 8%

Repayment Period	12 months	24 months	36 months	48 months	60 months
Applied Interest Rate	4.27%	4.27%	4.27%	4.27%	4.27%
Processing Fee	0%	0%	0%	0%	0%
Effective Interest Rate (EIR%)	7.79%	7.99%	8.00%	7.95%	7.89%

- There is no early repayment penalty

4. How will this help me with my debt burden?

If you are facing difficulties repaying your monthly unsecured credit debts in full as your income is affected due to the COVID-19 pandemic, the SFRP (Unsecured) will help you avoid the snowballing of interest and accumulation of debt that results from the rolling over of your outstanding balances.

For illustration purposes only:

Customer A has an outstanding balance of S\$12,000 on his OCBC Credit Cards.

- Assuming he is only able to make minimum monthly repayment of 3% for the next 5 years, he will have to make minimum monthly repayments ranging from \$360 to \$227, and will incur total interest of **\$12,513***.
- If he converts all his unsecured credit debts into a 5-year SFRP (Unsecured) term loan, he will have to make fixed monthly repayments of \$243, and will incur a significantly lower total interest of **\$2,598**.

	OCBC Credit Cards	SFRP (Unsecured)
Total outstanding	\$12,000	\$12,000
Repayment period	5 years	5 years
Interest Rate	26.88% p.a.	4.27% p.a.
Monthly repayment	Assuming customer only makes the 3% minimum payment, the monthly repayment will reduce gradually from \$360 to \$227, as outstanding balances reduce	Fixed monthly repayment of \$243
Total principal paid	\$4,667	\$12,000
Total interest paid	\$12,513*	\$2,598
Outstanding balance	\$7,333	\$0

**This is assuming that Customer A does not incur any further transactions.*

In summary, based on the above example, by converting his unsecured credit debts to SFRP (Unsecured), Customer A will be able to (1) better manage his monthly repayments, (2) lower interest cost and (3) pay off his principal amount.
